I was actually going to suggest that you share your slides with Ken and Nancy and try to get on their calendar soon. I'll have to check out the slides later this evening.

Thanks

Dave and Benita – pls let me know if you are comfortable with me sending the attached to Ken. He mentioned on Monday that he was going to have his admin set up a meeting to discuss, then called me to his office to start discussions. Just as we were starting to discuss Rosemont, Nancy came him and called us into her meeting on WOUS... I think Ken would be appreciative to see the slides in advance if you are comfortable. If you would like to discuss, I am available all days except for Wednesday – out on SL.... I look forward to hearing how you would like me to proceed – thanks... Russ

Note that Greg and Gautam also wanted to see a copy of the photos – thought I would cc them along with Nancy on the email to Ken

Also – Susan Brom indicated that she would like to sit in on the brief with Ken

Thanks - Russ

**Importance:** High

All: Attached is a power point summarizing some of the observations that I had noted during my visit to the Rosemont area last week. I have also provided some photographs that I had taken to capture the quality of the site, potential impact and mitigation areas. If you have any questions, pls do not hesitate in calling or emailing me. Thanks, Russ
